# Combining Queries

# Agenda

## A Quick Reminder

### Combining Queries

- Append Query
- Merge Query

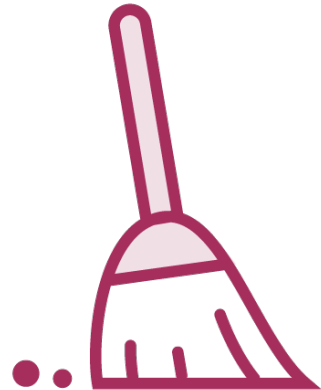

## Demo

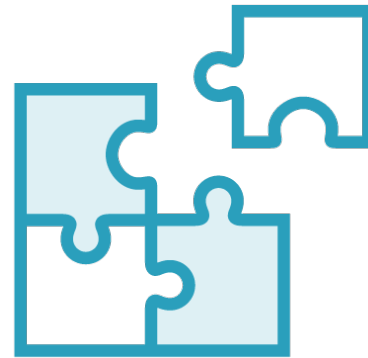

# Power Query

Data retrieval

Cleanse

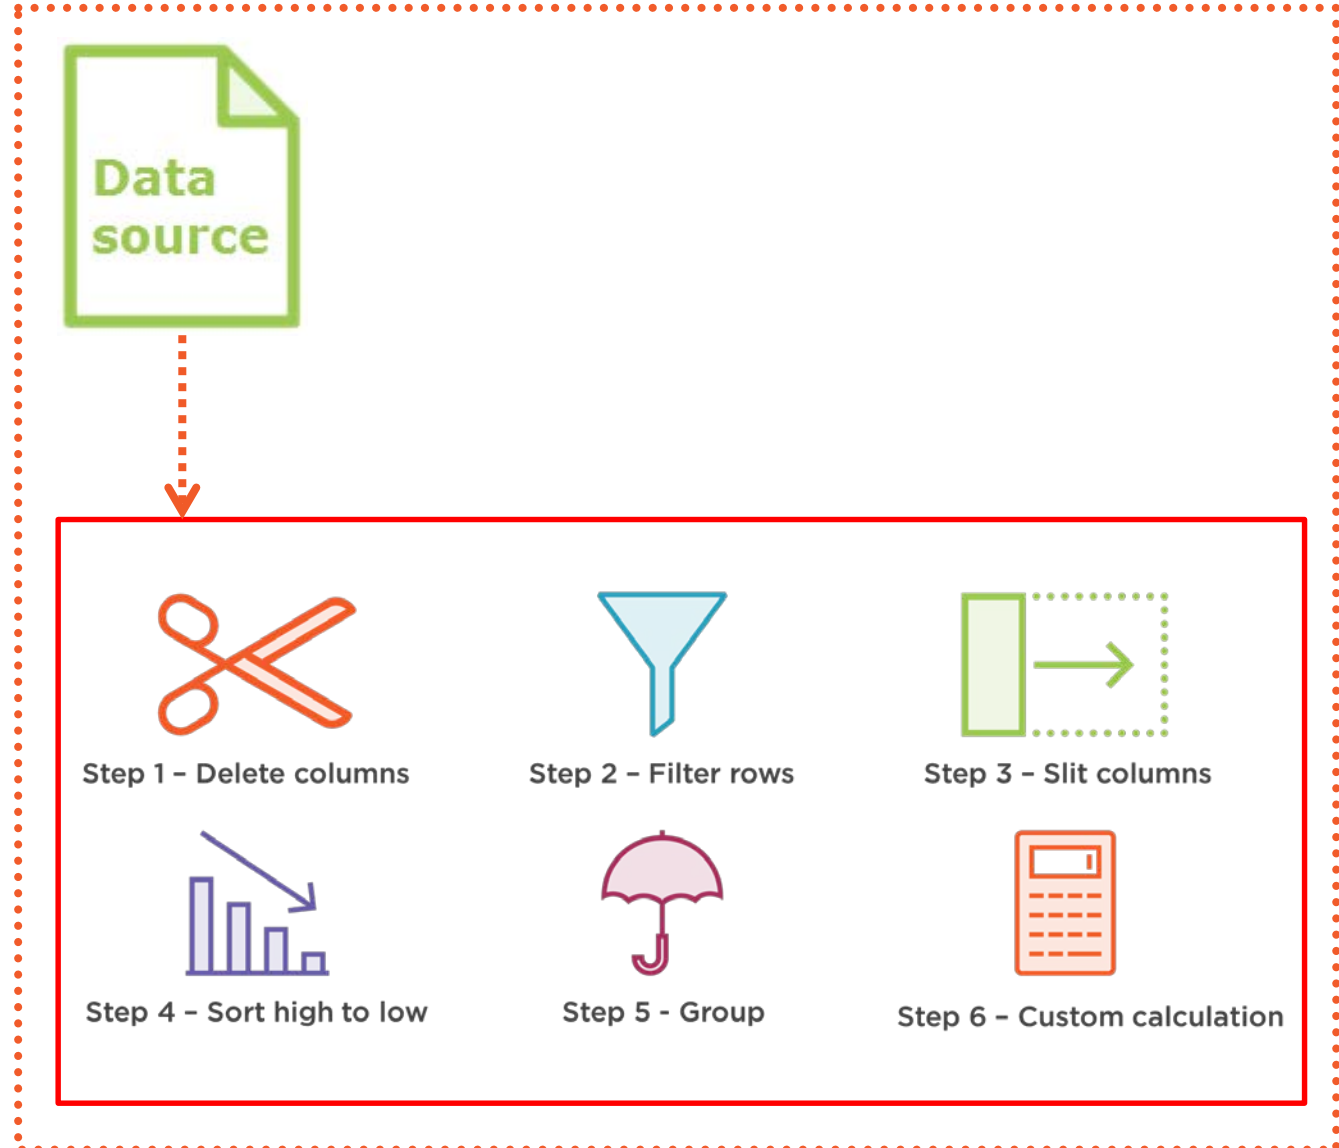

Combine

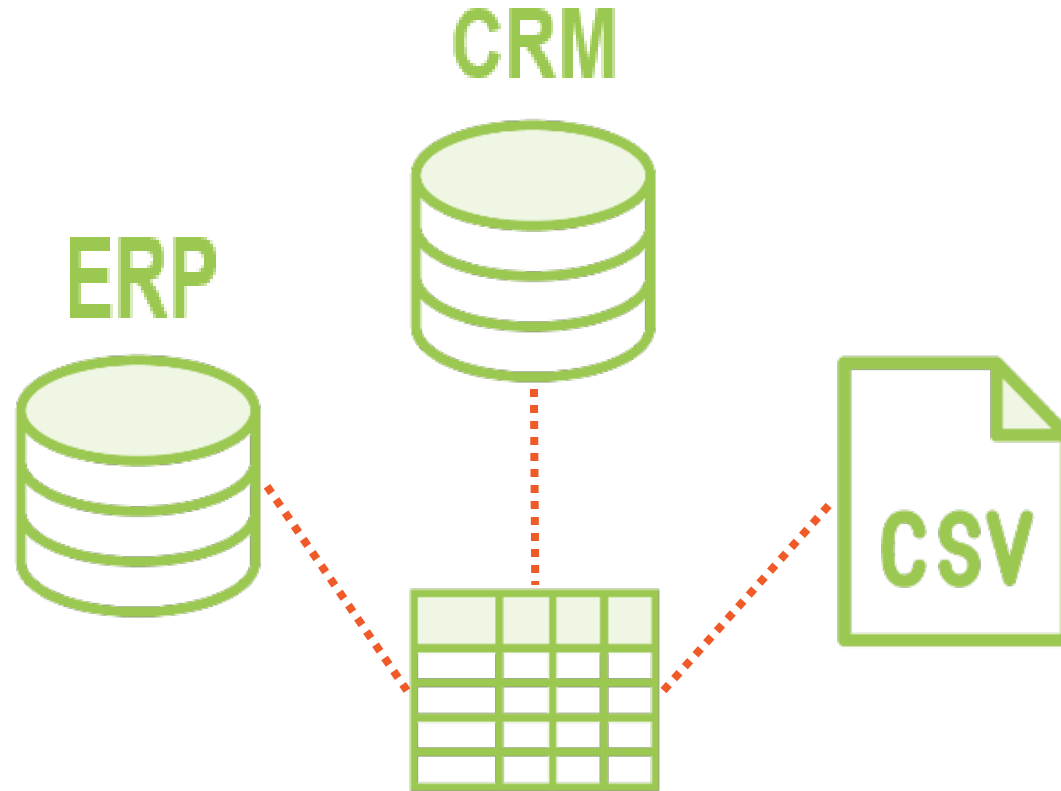

Share

# A Quick Reminder

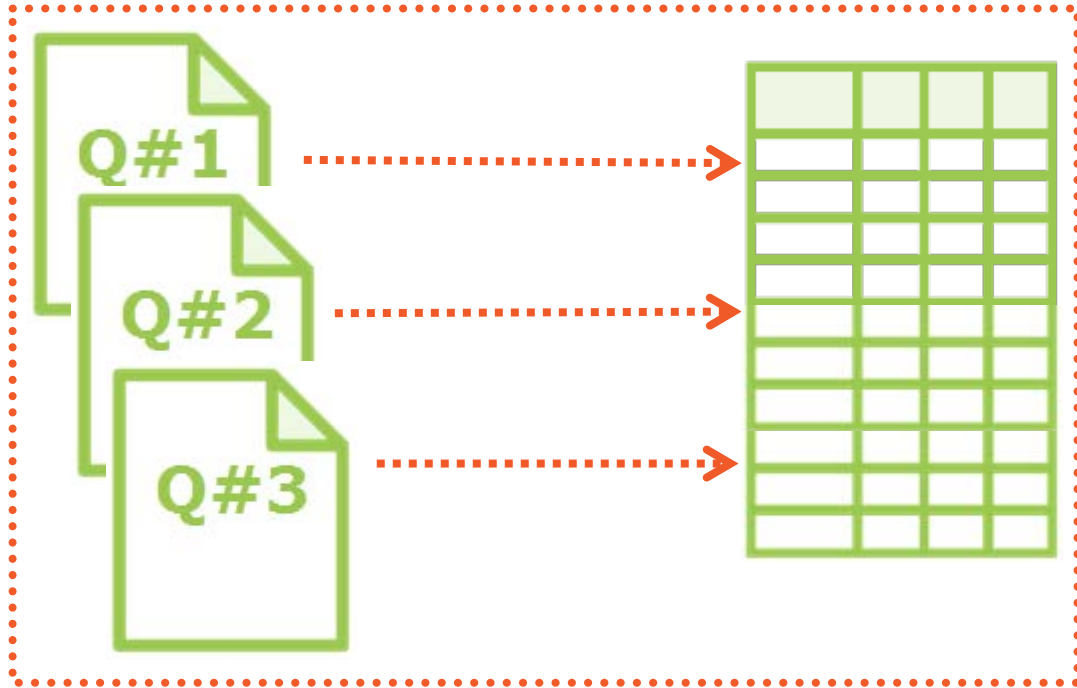

Remember - A query contains the data source and an optional set of actions to shape the data

# Why Do We Need to Combine Queries?

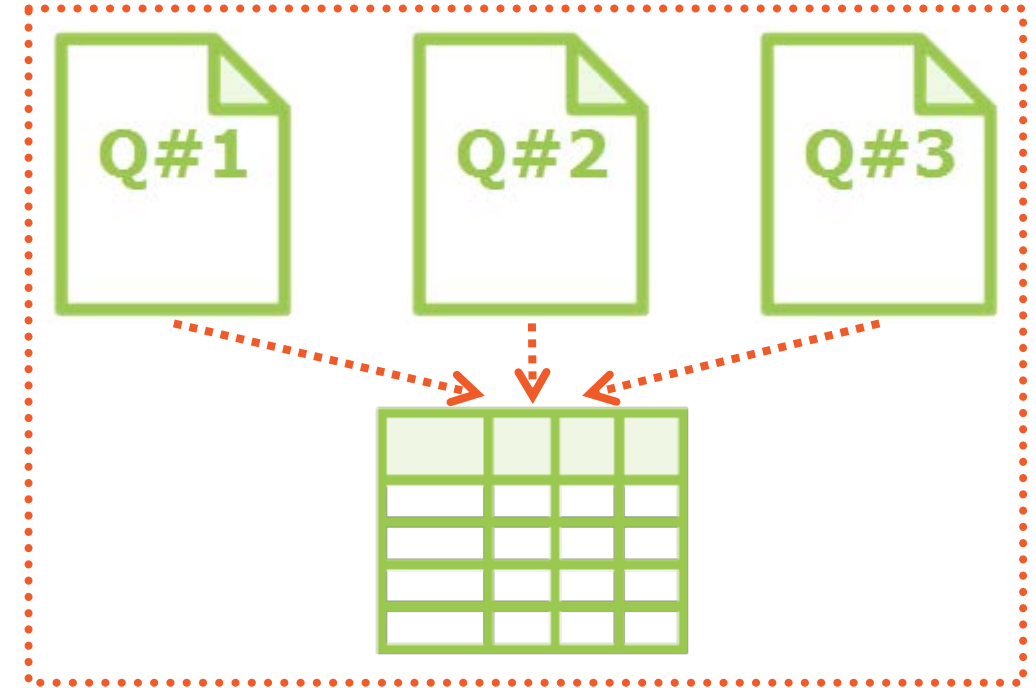

# Append vs Merge

## Append Queries

Data tends to be the same shape

## Merge Queries

Data is combined using a matched column

# Demo

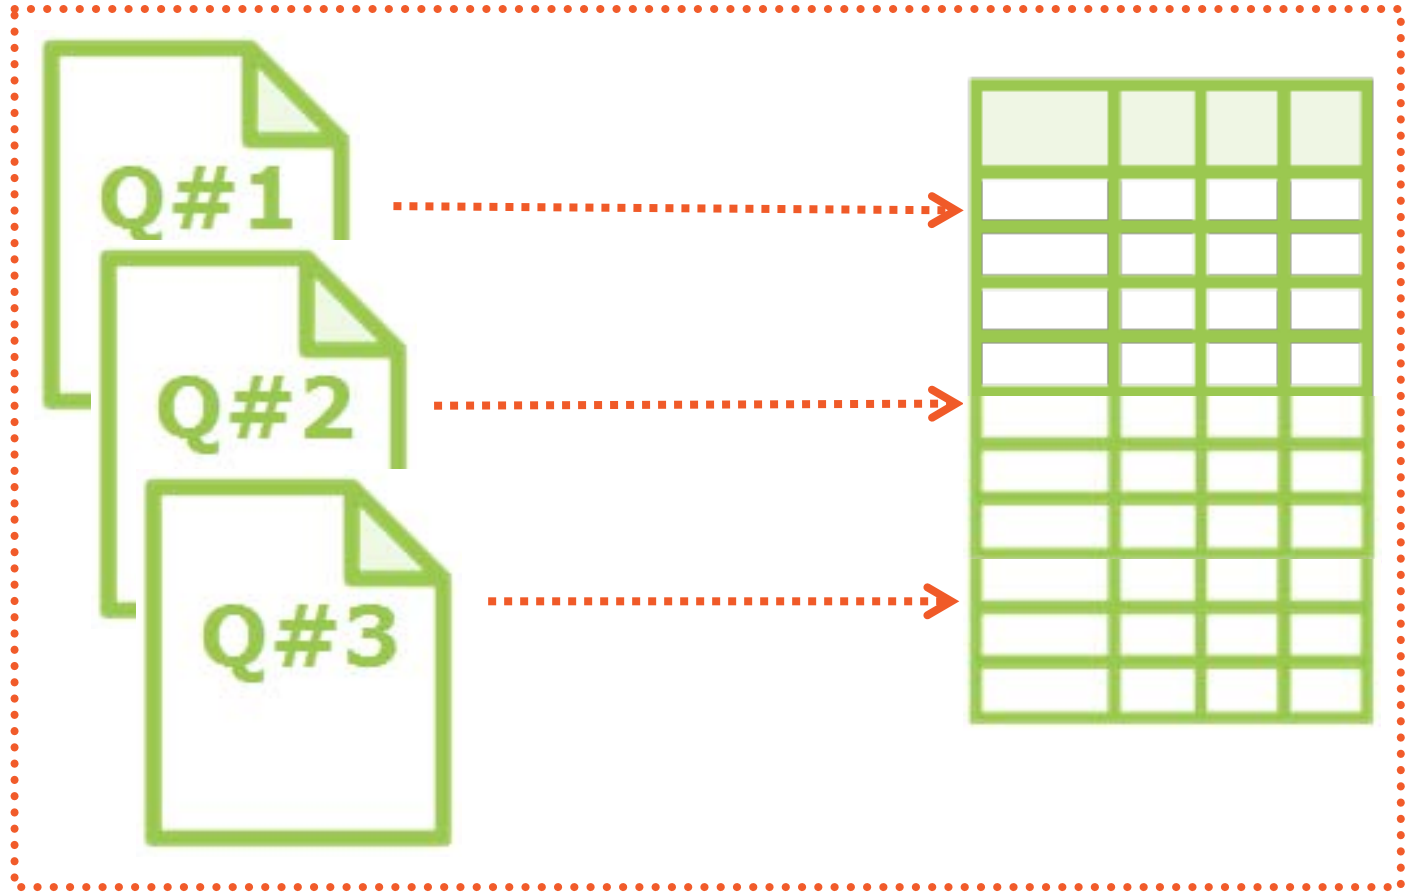

## Appending Queries

# Append Queries

Appended data is of the same shape. “Flat files” are often appended.

# Demo

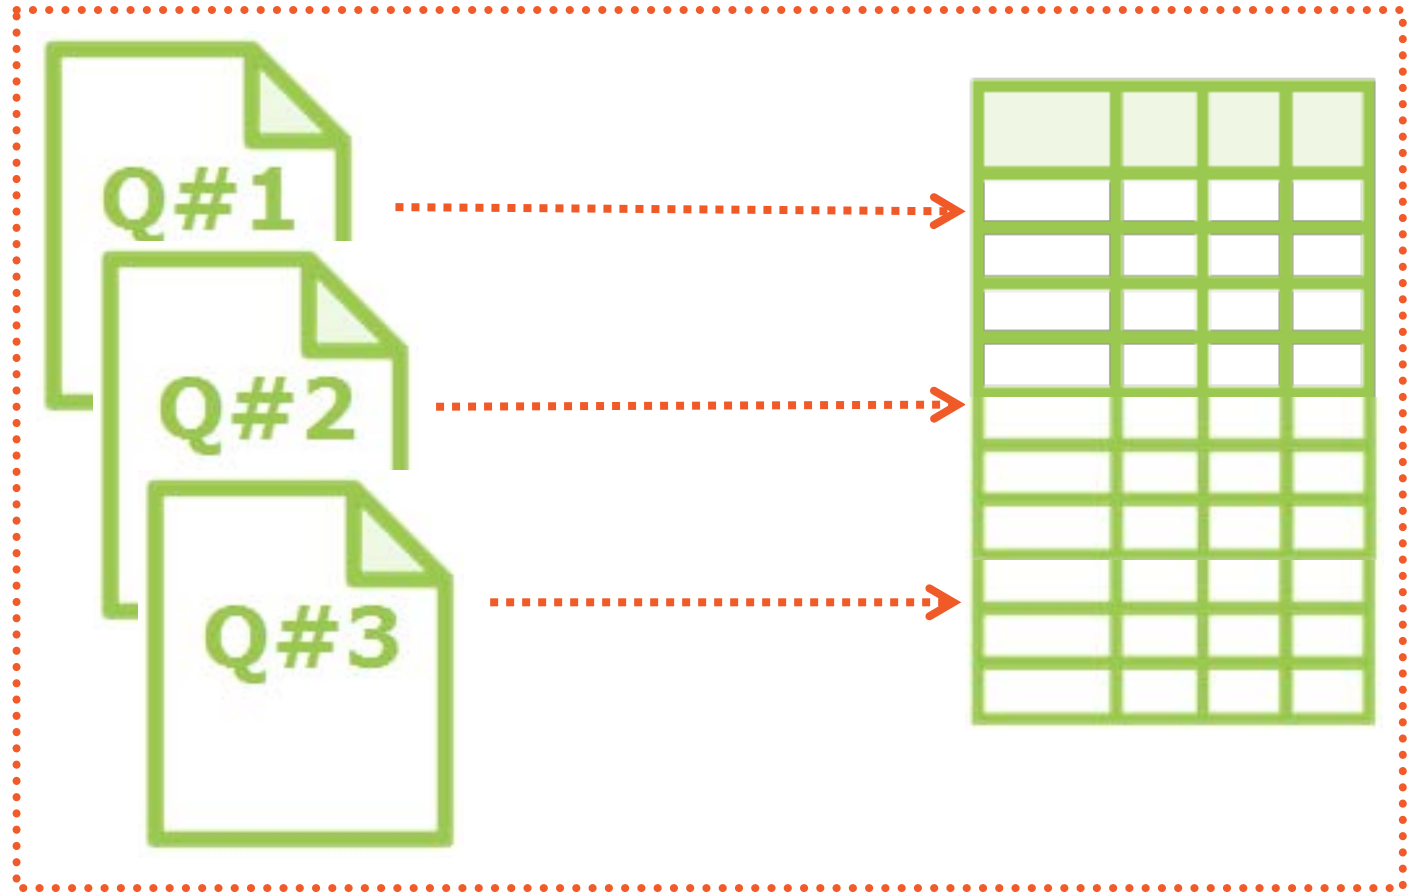

## Merging Queries

# Merge Queries

Merged data works using a merge column. Typically tabular data is merged

# Summary

## Combining Queries

- Append Query
- Merge Query
